Linux - 使用应用内卸载程序卸载 PIA 应用

Michael B - 2021-08-16 - Guides and Articles (Other Language - 中国人))

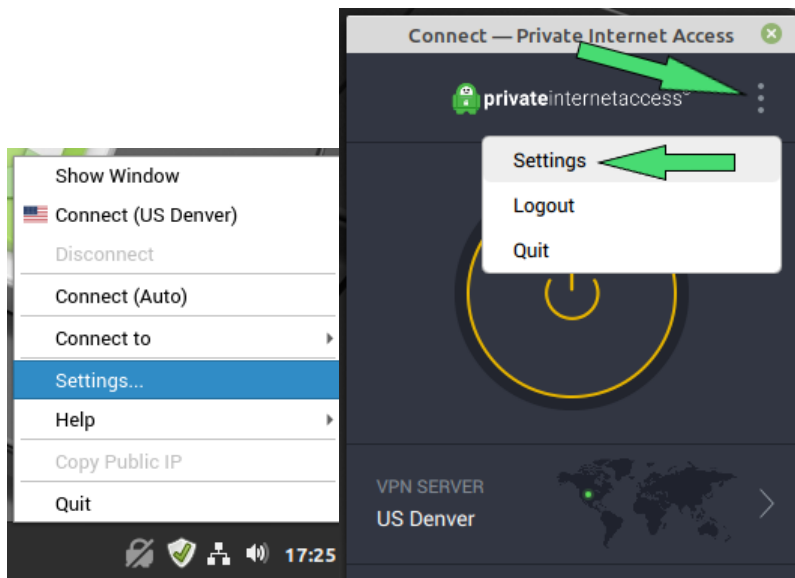

第 1 步：断开连接。

确保您已断开 VPN 连接。为此，您可以右键点击系统托盘或菜单栏中的应用程序图标再点击 **Disconnect**（断开连接），或者点击应用程序控件内的开关按钮。

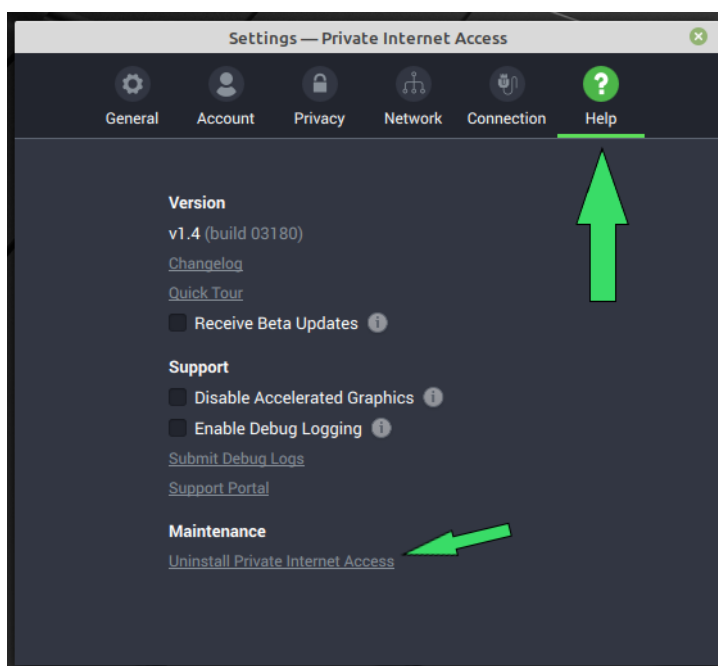

第 2 步：打开设置。

断开连接后，PIA 托盘图标将显示为带有斜杠的小锁。断开连接后，右键点击系统托盘中的应用程序图标或点击应用程序控件右上角三个竖排圆点，再点击 **Settings**（设置），以打开 **Settings**（设置）窗口。

第 3 步：帮助选项卡。

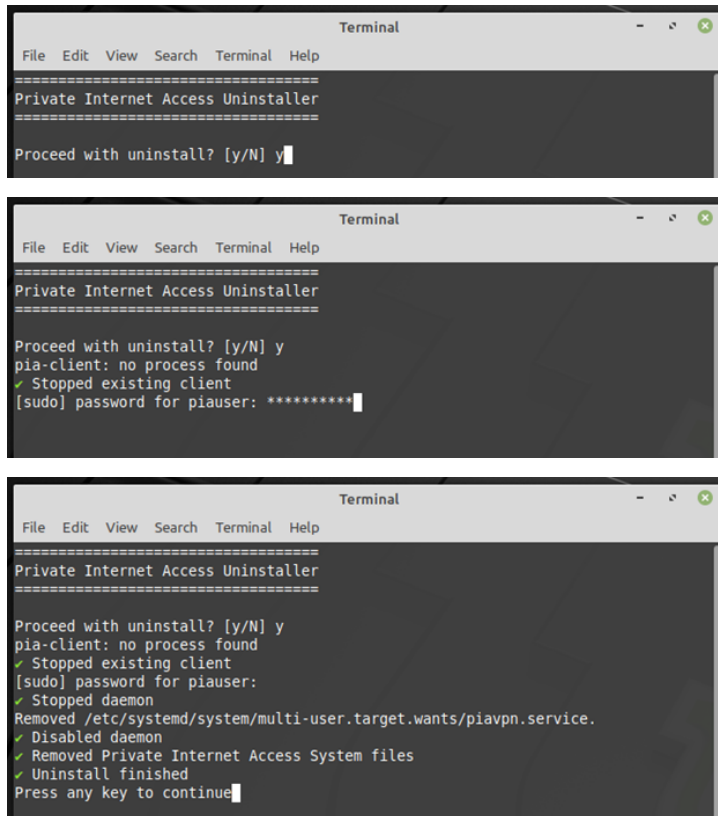

前往 Settings（设置）菜单中的 Help（帮助）选项卡。在这个选项卡下，点击 Uninstall Private Internet Access（卸载 Private Internet Access）

第 4 步：完成。

要完成卸载过程，系统会显示一个终端窗口，询问您要不要继续卸载应用程序。您需要键入 y

并按 Enter 键。终端还可能要求您输入 sudo/root 密码。

The image consists of three vertically stacked screenshots of a terminal window titled "Terminal". Each screenshot shows the "Private Internet Access Uninstaller" script. The first screenshot shows the prompt "Proceed with uninstall? [y/N]" with the user inputting "y". The second screenshot shows the script outputting "pia-client: no process found", "Stopped existing client", and then prompting for the "sudo password for piauser:". The third screenshot shows the script outputting "Stopped daemon", "Removed /etc/systemd/system/multi-user.target.wants/piavpn.service.", "Disabled daemon", "Removed Private Internet Access System files", "Uninstall finished", and finally "Press any key to continue".

```
Terminal
File Edit View Search Terminal Help
=====
Private Internet Access Uninstaller
=====
Proceed with uninstall? [y/N] y

Terminal
File Edit View Search Terminal Help
=====
Private Internet Access Uninstaller
=====
Proceed with uninstall? [y/N] y
pia-client: no process found
✓ Stopped existing client
[sudo] password for piauser: *****

Terminal
File Edit View Search Terminal Help
=====
Private Internet Access Uninstaller
=====
Proceed with uninstall? [y/N] y
pia-client: no process found
✓ Stopped existing client
[sudo] password for piauser:
✓ Stopped daemon
Removed /etc/systemd/system/multi-user.target.wants/piavpn.service.
✓ Disabled daemon
✓ Removed Private Internet Access System files
✓ Uninstall finished
Press any key to continue
```

输入 sudo 密码后，终端会继续并卸载应用程序。完成后，按任何键以继续，再关闭终端窗口。

该应用现在已经卸载！如果您想要重新安装应用程序，请从 [这里](<https://www.privateinternetaccess.com/helpdesk/guides/linux/linux/linux-systemd-installing-the-pia-app>) 查阅我们适用于 Linux 的安装指南。
