我如何知道我是否已连接到 VPN 并受其保护(CS)

Michael B - 2021-08-16 - Guides and Articles (Other Language - 中国人))

若要判断您是否得到 VPN 服务的全面保护，最简单的方法是：首先连接 VPN 服务，再访问我们的 [What's My IP](#)（我的 IP 是什么）VPN 测试页面。

- 如果页面中报告 **Protected**（已在保护中）或 **Your private information is unexposed**（您的私密信息未被暴露），则表示您连接了我们的 VPN。

The screenshot displays the 'What's My IP Address?' test page. At the top, a green shield icon with a checkmark is next to the word 'Protected'. Below this, a green box contains the text 'Your private information is unexposed'. To the right is a map of Phoenix, Arizona, with a blue location pin. Below the map and status, a table lists various system and network details.

IP Address	184.170.242.203
Internet Service Provider	Performive LLC
Location	Phoenix, United States
Browser	Chrome
Operating System	Windows
Screen Resolution	1920x1080

- 如果页面中报告 **Unprotected**（未在保护中）或 **Your private information is exposed**（您的私密信息已被暴露），则表示您没有连接或者有问题需要修复。

What's My IP Address?

Unprotected

Your private information is exposed

IP Address

134.202.32.11

Internet Service Provider

www.heficed.com

Location

 Chicago, United States

Browser

Chrome

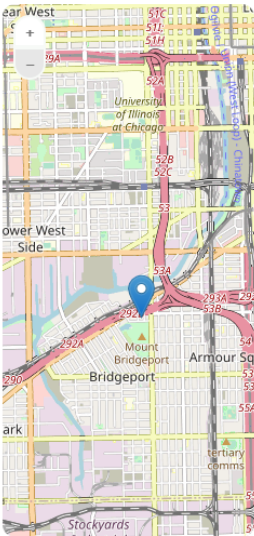

Operating System

Windows

Screen Resolution

1920x1080

Hide My IP address

如果您看到 You are not protected（未在保护中）或 Your private information is exposed（您的私密信息已被暴露），请参考本网站上的知识库文章来尝试修复问题。
