## 05th July 2018 - New Servers (US Washington DC)

2018-06-28 - Jayson Q. - in Announcements

A part of our efforts to add several new regions to better serve our customers, Private Internet Access welcomes a new additional region to its network:

Washington DC (**[us-washingtondc.privateinternetaccess.com](https://us-washingtondc.privateinternetaccess.com)**)

This region was enabled on the 5th July 2018 and should appear in the region list of our apps shortly.
