Desktop Client - 3.2.0 Release

2021-12-15 - Devin S - Announcements

We are excited to announce the latest release of our Desktop client (3.2.0)! With many new updates, including the addition of the Automatic MTU Selection which improves performance and reliability of the VPN connection, you will find that upgrading your desktop client is a no-brainer. You can see the changes that were made in this update via the [changelog](#) on our website, in addition to the listed points below:

- Added "Auto" MTU setting to measure actual MTU after connecting
- Added automatic tray icon theme on Windows
- Improved handling of expired accounts
- Fixed connecting to favorite regions after a connection was refused by the server
- Fix issue causing multiple dialogs on driver install on Windows
- Fix issue where deleting a Dedicated IP breaks tooltips

As always, if you run into any issues installing the update or using our service, our Support Team would be more than happy to assist with addressing your needs! Whether through our 24/7 [Live Chat Support](#) or our [Ticketing system](#), we want to ensure anonymity for all users seeking it!
