[Resolved] Server Outage - May 6th

2022-05-06 - Devin S - Announcements

We are currently experiencing intermittent issues with our servers in **Bulgaria, North Macedonia** and **Ukraine**. At this time, you may run into connectivity issues. While our team is working to address this issue, we currently do not have an ETA for when this will be resolved. We do advise users to use an alternative server location at this time. If you have any questions or concerns, feel free to reach out to one of our representatives through our [24/7 Live Chat Service](#) or through our [Helpdesk](#) using our Ticketing System. We apologize for the inconvenience of this, and hope to have this matter addressed swiftly, thank you for your patience!
